EXPERIENCE

Full Stack Developer / Test Automation Engineer
TS4U Bootcamp Projects , NY — Feb 2024- May 2025
LMS — Learning Management System

- Designed user interfaces and web layouts using Figma, implementing them with HTML5, CSS3, SCSS, and Tailwind for responsiveness and accessibility using react framework.

- Integrated AI-driven tools to accelerate HTML/CSS design workflows.

- Worked closely with designers to convert wireframes and mockups into functional, mobile-first web pages.

- Maintained consistency through reusable components and adherence to brand guidelines.

- Used Git, Bitbucket, and JIRA for version control and task management.

- Deployed and tested features through CI/CD pipelines using Jenkins.

- Implemented SEO best practices and performance monitoring using Google PageSpeed.

- Executed Cypress GUI & API tests to validate functionality and prevent regressions.

Quality Test Automation Engineer
Estée Lauder / Aveda Salon App , NY — 08/2022 — 11/2023

- Designed and executed manual and automated test cases in Zephyr; performed regression, functional, and Selenium testing.

- Built and maintained **JavaScript test suites**, tracked bugs in **Jira**, and collaborated with backend and frontend developers.

- Applied **responsive design principles** and ensured compliance with **accessibility (WCAG) standards**.

- Converted **Figma designs into testable workflows**, validating UI and functional requirements.

- Participated in **daily scrums**, contributing to QA cycles and ensuring timely resolution of defects.

Education:

MIT 2017-2020- Virtual University Of Pakistan.

SKILLS

Core: HTML5, CSS3, SCSS, JavaScript (ES6+), TypeScript, React, MongoDB. Node.js, npm
